The Complimentary Copy of the Mystic Stamp Company 2017 US Postage Stamp Catalog arriving in the mailbox today is nice.

In looking back over previous blog posts that include mentions of Mystic Stamp Company, their U.S. Stamp Catalog was included in my April 17, 2015, blog post – [“Shoe Box Stamps ... Continued here.”](#)

The Catalog for Stamp Collectors. And yes, you read it right – it is FREE!

To order you can click [here](#). It was less than two weeks from ordering to receive it. It is 8 1/2 x 11 in size.

While the image I'm showing is stating Volume 5, just to note the one I received states Volume 1.

It does come along with a sheet explaining their no obligation “on approval” service. This means it came with a small package of stamps a person can purchase or return in the enclosed pre-paid envelope to return. What is really fun is the additional option to send off for your Free Stamp Collecting Guide. This is going to be fun – stay tuned!

I sincerely appreciate the generous offering that any of us can have one of their catalogs like this to help with our interest in stamp collecting.

Over the course of 950 daily blog posts with today's post, there have been numerous references to stamps at the Mystic Stamp Company website. My sincere thanks to them for their offering their U.S. Stamp Catalog for free! Go ahead and order one for yourself, especially if you've been thinking of getting some stamps to use with your letter writing!
